Chief Desmond Would Have Another Inquiry as to E. M. Harris's Death.

TWO NEW WITNESSES FOUND.

Women Reported as Saying That Mrs. Cummings Admitted Accidentally Killing Her Second Husband.

An effort will be made by Chief of Defectives Desmond to have the inquest in the case of E. M. Harris reopened, Harris was the second husband of Mrs. Minnie Cummings, who is now in jall charged with the murder of her third husband,

Dennis Cummings.
Falling in his effort to have the case reopened by the Coroner, Chief Desmond will apply to Assistant Prosecuting Attorney Dalton for a warrant.

Dalton for a warrant.

This action is brought about by the report of Detective Heary Harrington, who has been working on the case, that he has found two witnesses who claim to have heard statements made by Mrs. Cummings about the death of Harris.

The names of the witnesses, according to Harrington's report, are Mrs. Minta Murray and Mrs. May Sage, both of No. 272 Lucas avenue.

According to the police these women say Mrs. Cummings admitted to them that she had killed Harris, but that it was accidental.

cide.

After the burial of her husband, Mrs. Harris moved to No. 2734 Lucas avenue. She became acquainted with Mrs. Sage and Mrs. Murray, they say, and with them discussed her husband's death several times. The witnesses are reported as having told Detective Harrington that one day when Mrs. Harris was weeping over the death of her husband, she became more confidential and told them that she had accidentally shot him.

Other witnesses have also been found.

who was tried on a charge of perjury in Other witnesses have also been found, who say Mrs. Harris made a similar statement to them.

Mrs. Kate Phelps of No. 2219 Lucas avenue, with whom Mrs. Harris roomed, has been reported as saying that Mrs. Harris once admitted to her that Harris was cleaning a killed while Mrs. Harris was cleaning a revolver for him. The weapon, she said, was accidentally discharged. Mrs. Phelps now refuses to discuss the case, saying if called upon in court to testify she will then make her statement.

CHOCTAW TIMBER LAND WILL NOT BE ALLOTTED.

Dawes Commission Withdraws 700,000 Acres to Circumvent Army of Speculators.

REPUBLIC SPECIAL Muscogee, I. T., April 24.-By one stroke of the pen the Dawes Commission has drawn from allotment 700,000 acres of pine timber land in the Choctaw Nation. This was done to circumvent the army of speculators who were preparing to gobble up

Expert timber estimaters were employed Expert timber estimaters were employed some time ago by the commission to appraise the timber in the Choctaw country, so that it could be considered when the value of allotments was fixed. These estimators went over substantially every acre of the 700,009 acres and found that the land contained 1,22,500,000 feet of pine of commercial value.

of the 700,000 acres, and found that the land contained 1,20,350,000 feet of pine of commercial value.

The timber land is practically worthless for agricultural purposes. All it is good for is the timber. Speculators have been working among the Indians for months to induce them to settle upon the timber lands and enter into contract to sell them the timber after the allotments are made.

In some instances the speculators have contracted to purchase the timber from the allottees at from \$10 to \$80 for each allotment. This is so grossly inadequate as to be a great injustice to the allottee. The prices contracted for were so much below the fair value of the timber as practically to deprive the Indian of the value of his allotment.

Since opening of the Atoka and Tishemingo land offices these speculators have been running in ignorant Indians by the score for the purpose of locating them on the timber land. Several apeculators have even herded Mississippi Choctaws in large numbers and feeding and otherwise providing for them until they can get their allotments.

Governor McCurtain, chief of the Choclast six weeks there has been a sharp ad-vance in the prices demanded for beef and mutton, both at wholesale and retail. All signs point to a further advance during the next thirty days, or until grass-fed The increase in wholesale rates within six weeks has been from 20 to 25 per cent; the increase in the prices charged consumers has been from 15 to 20 per cent. Dealers in high-class meats experience no difficulty in disposing of the usual amounts of packing-house products, but the retailers, who do business exclusively with people of moderate means, are already feeling the effect of high prices in their bank accounts. Beef, sold by the carcass, is now worth at wholesale 7½ and 8 cents a pound. Six weeks ago the selling price was 6 cents.

violing for them until they can get their allotments.

Governor McCurtain, chief of the Choctawa, emphasized the case in a lengthy letter to the commission, protesting in emphatic language against these contracts and
asking the commission to protect his people from these timber speculators.

The commission has not yet decided what
it will do with the timber, but none of this
land will be allotted until some restrictions
are made that will protect the Indians
from greedy speculators.

Six weeks ago the selling price was 6 cents.

All of the packers sent notices of increase nearly simultaneously. A representative of one of the packers said: "Every year about this time prices are increased. My instructions are to sell as little as I can at this time, as the supply of choice beeves at the packing-houses is limited.

"The increase in prices has been gradual. A rise of from 16 to 20 per cent seems abnormal to those not in touch with the packing situation, but the packers are at present working on an exceedingly narrow margin of profit. It is the volume of business transacted that makes the profit there is in the business." REPUBLICANS WERE ABSENT. Marion County Board Adjourned Till Next Tuesday.

REPUBLIC SPECIAL

Salem, Ill., April 24.-At 19 o'clock this morning, the hour set for the adjourned meeting of the County Board of Supera hore reel as it was rounding a corner at Broadway and Cherokee street, going to a fire in the American Car and Foundry Company's plant, and sustained a fractured

meeting of the County Board of Supervisors, the nine Democrats answered to
roll call—no quorum being present Chairman Rogers waited until 11:30 on the delinquent members, and, then, on motion, a
recess was taken until next Tuesday at 10
a. m., and the County Clerk was instructed
to notify the absent members under the
seal of his office of Tuesday's meeting.
It is said that if the Republican members refuse to attend the adjourned meeting legal steps will be taken against them.
The law is that they may be indicted, fined
and removed from office.

The action of the board is an obstruction
to the business of the county. Claims to
the amount of about \$8.00 have been filed
for allowance, and these will all have to
go over until a meeting of the board can
be held, also there are a number of interest claims on the county debt that should
be adjusted, and these likewise must be
left unadjusted.
Pauser claims. Bailiff and court fees be adjusted, and these likewise must be left unadjusted. Pauper claims, Bailiff and court fees should be paid, but all these are at a standatill, and the people are necessarily becoming furious over the terrible state of affairs.

affairs.

It is generally conceded that the Republicans, by the election of Rogers as chairman and their general acquiescence in the action of the board on the first day of its organization in transacting business with the Democratic organization, have lost all right, if any they might have had, by reason of the action of Mr. Gain. The entire matter will now rest until the meeting next Tuesday. Rilled Brother at Play.

Doctor William R. Faulkner, genera manager of police property, yesterday sub-mitted to the Board of Police Commission-ers a statement showing the amounts saved in various appropriations for the department during the fiscal year ending April 13.

The total amount turned over to the City Treasurer from the different appropriations is \$41,687.51. The cost of maintenance of police stables for the year was \$46,081.35 and for the patrol stables, \$15,66.52, a total of \$2,467.71. It cost \$1,509.52 to shoe the department's horses, of which there was an average of \$127 1-5 for the year. This is an average cost of about \$6% cents for each set of shoes.

The statement shows that the feeding of the \$127 horses for the year was done for a remarkably low price, considering the well-fed appearance of the Police Department horses. Unserviceable police horses were sold, and the proceeds, \$1,911.55, turned over to the Board of Police Commissioners. partment during the fiscal year ending
